The International Gas Union (IGU) was founded in 1931. It is a worldwide non-profit organization registered in Vevey, Switzerland with the Secretariat currently located in Barcelona, Spain. The mission of IGU is to advocate gas as an integral part of a sustainable global energy system, and to promote the political, technical and economic progress of the gas industry. The more than 160 members of IGU are associations and corporations of the gas industry representing over 94% of the global gas market. The working organization of IGU covers the complete value gas chain from exploration and production, transmission via pipelines and liquefied natural gas (LNG) as well as distribution and combustion of gas at the point of use.

"As the global voice of gas, IGU seeks to improve the quality of life by advancing gas as a key contributor to a sustainable energy future."

“As the global voice of gas, **IGU** seeks to improve the quality of life by advancing gas as a key contributor to a sustainable energy future”.

IGU, as the global voice of gas, seeks to improve the quality of life by advancing gas as a key contributor to a sustainable energy future.

IGU works to improve the competitiveness of gas in the world energy markets by promoting transparency, public acceptance efforts and the removal of supply and market access barriers. It promotes development of technologies which add to the environmental benefits of gas and further enhance safe production, transmission, distribution and utilisation of gas.

IGU organizational chart
IGU enjoys a number of global and regional strategic relationships and partnerships collaborating in areas of common interest.

IGU publishes technical information and reports on key issues.

**World organizations:**
- World Bank
- SE4ALL
- G20
- IEA
- UNE
- Methane Guiding Principles

**Regional organizations:**
- GasNaturally
- LAGC
Regional Coordinators are the senior IGU representatives, monitoring developments, serving as a sounding board for IGU on its advocacy efforts and taking an active part in IGU activities/events in the following regions:

- Europe
- Middle East & Africa
- North America
- South & South East Asia
- North East Asia & Australasia
- Russia, Black Sea & Caspian
- Latin America & the Caribbean

Andrea Stegher, Senior Vice President, Marketing Global Solutions, SNAM (Italy) and Regional Coordinator, Europe.

The Latin American region has huge opportunities to take advantage of the benefits of natural gas in transportation and the industry to improve the air quality of the cities and the competitiveness needed for the economic and social development of our countries.

Orlando Cabrales, CEO Colombian Natural Gas Association and Regional Coordinator, Latin America & Caribbean.

"Europe is strongly committed to achieving carbon emissions neutrality by 2050. Gas can contribute to this challenging goal, strongly promoting and focusing on technological innovation to achieve a low carbon future. IGU, together with other relevant stakeholders, has a crucial role to promote this path."

Andrea Stegher,
Senior Vice President, Marketing Global Solutions, SNAM (Italy) and Regional Coordinator, Europe.

Working Committees and Task Forces

A unique unprecedented global networking opportunity

The **11 IGU Working Committees and 3 Task Forces** comprise a global network of professionals that cover the entire gas chain, addressing the most pressing issues affecting the gas industry worldwide. The members work in study groups and participate in various meetings, forums, discussions and interactions with external organizations linked to IGU through conferences and constructive sharing of information.

Charter and Associate members are entitled to nominate individuals to join the committees in their various study groups. The personal contact, group interaction and cultural/social experiences through active participation in IGU working meetings add significant value for the participating individuals, companies and organizations providing a unique opportunity for improving future decision making, enhancing business relationships, and gaining operational excellence.

11 Working Committees

- Storage
- Exploration & Production
- Transmission
- Distribution
- Utilization
- Sustainability
- Strategy
- Gas Markets
- LNG
- Marketing & Communication
- R&D and Innovation

3 Task Forces

- **TF1**, Strategic Communications and Outreach
- **TF2**, Energy for All
- **TF2**, Energy Policy

“Working in an IGU Committee represents a great opportunity to improve my network of contacts within the gas industry at an international level, and to mutually strengthen our knowledge of the business. The possibility of sharing my experiences with other colleagues is rewarding, both personally and professionally, and only in the IGU can one find this kind of fluid relationship with experts from all over the world of the same business.”

Carlos Serrano, Chairman of Utilization Committee.

BENEFITS FROM IGU MEMBERSHIP

03

Access IGU’s database of publications, reports and event proceedings, as well as our vast archive of knowledge.

Receive access to IGU’s flagship reports ranging from gas pricing to LNG, as well as the opportunity to contribute to the teams that create the reports.

Access the member-only section of the IGU website including reports, member contact details, and updates on the working groups around the world.

Be an active player in IGU’s advocacy activities and strengthen the global voice of gas.

Nominate participants to lead a committee or study group and influence the key topics of focus for the gas industry. Be influential in preparing the Triennial Work Program, advancing committee work and shaping the World Gas Conference over each three-year period.

Expand your network.

Utilize the extensive IGU network across five continents and attend the prestigious IGU events to make new business connections and strengthen relationships. Use IGU’s channels and make easy contact with IGU members, Strategic Partners, Regional Coordinators, Wise Persons, the Secretariat.
IGU delivers outstanding value to its members and offers many opportunities:

**Access** IGU’s database of publications, reports and event proceedings, as well as our vast archive of knowledge.

**Receive** access to IGU’s flagship reports ranging from gas pricing to LNG, as well as the opportunity to contribute to the teams that create the reports.

**Access** the member-only section of the IGU website including reports, member contact details, and updates on the working groups around the world.

**Be an active player in IGU’s advocacy activities and strengthen the global voice of gas.** Nominate participants to lead a committee or study group and influence the key topics of focus for the gas industry. **Expand your network.** Utilize the extensive IGU network across five continents and attend the prestigious IGU events to make new business connections and strengthen relationships. Use IGU’s channels and make easy contact with IGU members, Strategic Partners, Regional Coordinators, Wise Persons, the Secretariat.
Increase your professional development. Participate in any of IGU’s 11 Committees and three Task Forces covering the whole gas value chain. Joining over 1,000 professionals worldwide sharing information and knowledge, and influencing the key topics of focus for IGU.

Empower your technical, commercial and policy staff through engagement with peers, learning and development activities.

Engage your staff in IGU’s activities through secondment opportunities within the IGU team.

Enjoy complimentary registration(s) to the IGU’s Annual Council Meeting, including official events, networking functions with the hundreds of delegates who attend, industry seminars and presentations and technical tours including complimentary accompanying person program.

Benefit from special offers at IGU’s global and regional events such as discounts for attending delegates and for exhibitors’ stands.

Become eligible for calls of papers at IGU events as well as for the gas award at the World Gas Conference.

Opportunity to host IGU events from targeted technical seminars to Ministerial forums.

As an IGU member you can benefit from the use our logo to display your membership status.
IGU has four membership categories

- Charter members
- Associate members
- Premium Associate members
- Affiliated organizations
Charter members

A Charter member is the most representative gas entity in a country, most commonly the national gas association or a major oil and gas company. However, some Charter members are also represented by ministries and national regulators.

“"For nearly two decades Sudan has been producing Oil and Gas, along with the country’s massive economic growth over that period. With the Oil and Gas industry becoming more mature, a path to a brighter future and an advance in the sector development was needed. Becoming an IGU Charter member was the pathway we chose to support the development of the gas sector in Sudan. Natural gas is the most efficient and reliable fuel for progression in a developing country like ours in order to become a developed country. We had the privilege to attend two IGU events since we joined IGU in June 2018, in which our experiences exceeded our expectations. Our utmost respect to the IGU Community".

Elamin Mustafa,
Gas Projects Section Head,
Ministry of Petroleum & Minerals, Sudan.

Membership entitlements

Two delegates at the annual Council Meeting and Workshop including the official networking functions, accompanying persons program and technical tours.

Voting rights at Council Meetings.

Join any of the Committees and nominate members to the special Task Forces.

Nominate Committee Vice Chair/Chair.

Stand for election to the Executive Committee.

Access to members-only website with ability to search committee working documents, material from major IGU conferences, workshops and seminars and archived reports.

Bid to host IGU Presidency, and host any of the major IGU events.

We had the privilege to attend two IGU events since we joined IGU in June 2018, in which our experiences exceeded our expectations. Our utmost respect to the IGU Community.”

Elamin Mustafa, Gas Projects Section Head, Ministry of Petroleum & Minerals, Sudan.

Associate members

Associate members include companies that own physical and/or commercial gas-related assets or have an interest in advancing the global gas industry, such as consulting, contracting, supply, technology development or advisory services.

“As a new member of the IGU and after my first attendance to an IGU meeting I would like to thank you and all your colleagues very much.

The warm welcome and very professional organization were very impressive. The discussions of the meetings I found very interesting and, of course, the people that I met from all over the world”.

Dr. Swen Sewerin, Managing Director, Hermann Sewerin GmbH, Germany.

Membership entitlements

One delegate at the annual Council Meeting and Workshop including the official networking functions, accompanying persons program and technical tours.

Join any of the Committees and nominate members to the special Task Forces.

Stand for election to the Executive Committee.

Access to members-only website with ability to search committee working documents, material from major IGU conferences, workshops and seminars and archived reports.

Opportunity to host an Executive or Council Meeting/Workshop, Ministerial Gas Forum or other IGU event.

*Total annual natural gas production and consumption as reported by the UN.
Affiliated organizations are organizations that do not meet membership criteria but that can assist IGU with its mission, increase and rationalise cooperation within the energy sector, and generally promote the development of the natural gas industry. Both parties benefit and work together to avoid overlapping research and development activities.
