RUSSIAN GAS SOCIETY

Energy Dialogue: Russia-European Union. Gas Aspect

Natural Gas: Powering the Low-Carbon Economy

Torstein Indrebø
Secretary General of IGU

19 May 2011, Berlin,
Germany

The global energy future

Impacting the global framework:

- Rising population – from 6 to 9 billion in 2050
- Human strive for a better life
- Technological progress
- Climate change concerns

The world needs:

- More energy
- Cleaner energy
- Affordable energy
- Safe energy

Growth in all fields, but fossil fuels will dominate

Source: IEA WEO 2010

World energy demand expands by 45% between now and 2030 – an average rate of increase of 1.6% per year – with coal accounting for more than a third of the overall rise

Technological progress

- **Unconventional gas**

- Shale gas, tight gas and coal bed methane

- **LNG Developments**

- Large scale plants, ships, terminals

Impact on availability, affordability and supply security

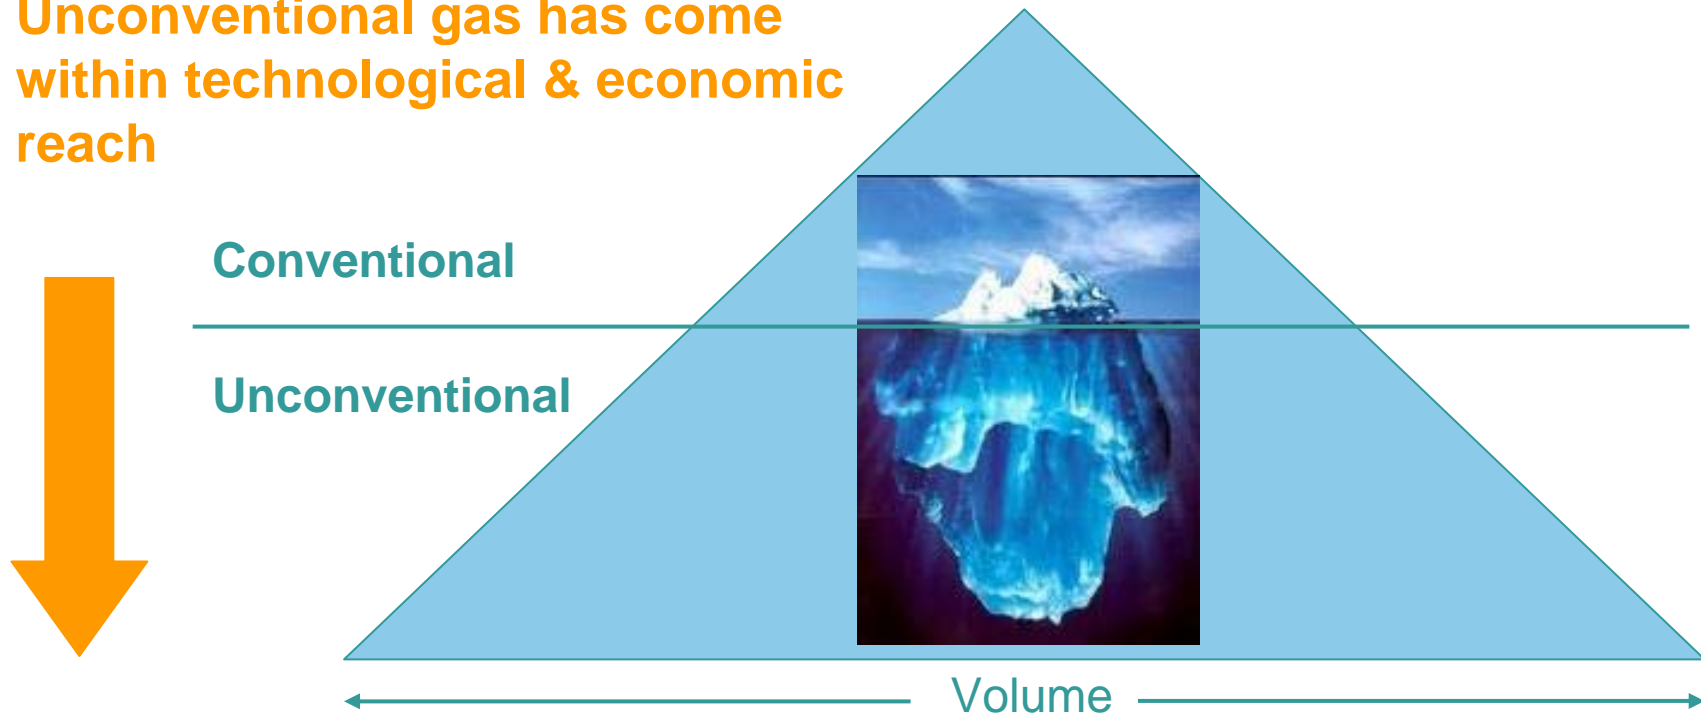

Natural Gas reserves: plenty & more to come

News, Views

on Gas - World Wide

Recoverable gas resources are growing

Unconventional gas has come
within technological & economic
reach

Recoverable gas resources for 250 years

- IEA-WEO2009 -

Role of gas in mitigation of climate change

- **Power production - CHP**
 - Lower GHG emissions, particles, soot
- **Transportation sector**
 - Air quality, lower GHG emissions
- **Enabler for biogas, wind, solar**

Cost of reducing CO2 emissions

Source: McKinsey

Gas for Transportation

Natural gas is applicable for most kinds of transportation

Natural Gas enables renewable energy

Natural Gas - Wind - Solar

Natural gas can
facilitate production
of intermittent
renewables

An ideal combination

Energy Infrastructure

- **Energy systems – 40-50 years lifetime**
- **Societies invested huge amounts in infrastructure**
- **Capital intensive**
- **Important to build on existing infrastructure**

Costly to make wrong policies

Natural Gas CARES for the world

- C** - Clean
- A** - Affordable
- R** - Reliable
- E** - Efficient
- S** - Secure

25th World Gas Conference

**“GAS – SUSTAINING FUTURE
GLOBAL GROWTH”**

**Kuala Lumpur Convention Centre
4 to 8 June, 2012**

CHARMING COUNTRY, COLOURFUL CITY

www.wgc2012.com

A climate-friendly energy policy for Europe

- Enhance energy efficiency and savings
- Increase the use of gas in power generation
- Phase in renewable energy
- Develop Carbon Capture and Storage technology
